The Red Carpet Dewey Skin Look WITHOUT the crazy price

Every time we see celebrities walking on the red carpet we all notice the same thing. Sure, you appreciate their outfits and how well they coordinated with their partners...But *really* we see their skin and how the flashing lights reflect off their iridescent, glowing skin.

Of course, we don't all have thousands of dollars to shell out on monthly facials and expensive skin routines.

-But what if you can get that dewy skin *without* spending a whole paycheck?

Yes, it's possible! Use these strategies to give your skin the glow it deserves.

Wash your face every night

Sounds obvious but it's *so* important. It's so common for us to under cleanse and over moisturize. The daily build up of simple activities can have your skin clogged without you even knowing and that is the exact way to ruin a good makeup look.

Remember, skincare is the *foundation* for glowing makeup and you can't cover it up and nor should you. Always start with a fresh face :)

Clean your pillowcases

NEVER forget to wash your pillowcases. You could be doing everything right but if your pillowcases aren't clean it will cause dirt and oil buildup as you sleep. Don't allow yourself to do all the work just to forget a clean pillowcase. I have been there, wondering why my skin is still

breaking out even though I have been washing my face consistently. The culprit? MY pillowcase- be sure to throw them in while doing laundry. :) Your skin will thank you later, trust.

WATERRRRRRR! *spongebob voice*

Health always starts from the inside out.- keeping yourself hydrated is key. Curious how many ounces you need to be drinking? Divide your body weight (lbs) by two. The answer is how many ounces you should be drinking daily. If you don't really love the taste, consider adding lemon but when in doubt, drink water!

Sunscreen, babe.

The sun's rays are so much more powerful than you think. Using sunscreen will protect your skin from getting sun spots, dark spots, and growing older with tons of wrinkles. You may not think you need it because you don't get sunburnt easily but the sun's rays are so powerful and can cause unwanted spots on your skin and then will affect that dewy glow.

Ready to give your skin a refresh? Go try these tips and use them daily! Though it will take some time, using these simple and "easy on the old wallet" tips will have you strutting down any red carpet in no time. Rooting for you to achieve that skin glow that will make you smile !

How to get the deep, stress-relieving sleep you've been craving.

Let's begin by asking the question... *Why are you here?*

My guess? You're such a busy person who often can't fall asleep because your mind is racing. Many of us are in the same boat- unable to stay asleep or reach the deep sleep we need to feel refreshed. It's a never-ending cycle.

Luckily, we created the remedy because we know how frustrating it can be for restless sleepers. Perhaps we should bring up another question you are probably wondering.

Can music help you fall asleep?

The short answer? Yes.

For centuries music has been used as a therapeutic tool to increase emotional health, mental performance and sleep. Dating back to ancient Arabic cultures-- musicians worked alongside physicians to aid in healing.

Music is known to powerfully affect your heart rate, breathing, and hormone release frequency. It also boosts cognitive functions within the brain. These effects help you reach a sleep that you may have not even known was possible. Soothing music can quiet your nervous system and even reduce stress and anxiety. *And we all have a lot of that.*

Use soothing sounds and music to get the sleep you need -- and stay *comfortable* at the same time.

Your next step is acquiring the right tools to be able to listen to the music AND lay down comfortably!

That's where we come in.

Lullaband is a wireless speaker specifically designed for people ready to use music/sound therapy to give them a good night's rest.

Lullaband + soothing music = the deep sleep you've been missing.

“A *powerful* and exceptional debut story of redefining life and love after pain”

- Patricia Henegan, SC State Representative

“I laughed, I cried, and I was angry but most of all I feel like I *knew* Dorthea. Dorthea is a character that lives within us all.”

- Shara Finley

In order to find yourself sometimes you have to truly lose yourself. Becoming the person you are requires sacrifice, devotion, and sometimes...**suffering**.

In *Disremember Me*, high level career woman, mother, poet, and new author Jean Moore Turner writes a grueling true story of young Dorthea's journey to finding her way in the world after a traumatic series of events.

From a very young age, Dorthea was surrounded by community. Her family and friends were all devout Jehovah's Witnesses. This life is all she knew. She loved her community and her faith. But when a deep misunderstanding causes her to lose everything she has ever known at age 26, she is cast out and **shunned** by members of her family for over 25 years.

With time, she finds herself climbing the ranks of her career, meeting new life long friends, getting married, and having children of her own. Making a new life for herself. Though her life looked perfect on the outside, she carried this pain and sadness with her as she longed to see her family again. All while trying to keep her past from affecting her beautiful new life.

*To what lengths will she have to go to keep her explosive **past** from meeting her safe **present**?*

Jean Moore Turner began writing poetry and short stories when she was in middle school.

Though her career focus was global leadership in a Fortune 100 company, she always kept writing close to her heart. Her debut story is one she holds close. She is a wife and mother of three and currently lives in Ohio where she continues to write and inspire the lives of others.

This book is her memoir.

This book is a memoir. It reflects the author's present remembrance of experiences over time.

Names and characteristics have been altered. Some events and storytelling has been compressed and some dialogue has been recreated. The forward was written directly by Carolinda. All other chapters entitled "Carolinda" represent the author's imaginings of what Carolinda went through and felt during key moments and occurrences during Dorthea's life. The forward was written by Carolinda.

History

No more overpriced bags and low quality

About 10 years ago, my partner Dave bought a super expensive bag for his wife...

Of course, we may all do that from time to time but this bag fell apart almost **instantly**.

What did he pay for? The brand? Sigh!

He brought that issue to me and we put our heads together. How could we fit into this marketplace? How can we make a bag brand that's built on integrity AND style AND vision.

After sifting through a lot of research, we launched our spin on a timeless yet trendy bag company calling it, Minor History.

With our decade of experience in manufacturing and product development, we harnessed our knowledge to develop a sustainable leather bag brand because **we truly care about our footprint:**

- no plastic liners
- no fillers
- no chrome-tanned lining

We pride ourselves in being among the 10% using only vegetable-tanned leathers.

We know what your thinking.. two men running a handbag company?

Our team is made up of brilliant woman who have helped tailor our vision and mission into what is it today. Designers, Marketers, and thought leaders.

Minor History is for the woman who loves the traditional bag silhouette but also searching for those trendy styles and colors. We wanted our bags to beautifully complement our customers. No large brand names on the front. It's not about us. It's about you.

Your personality. Your aspirations. Your travel. Your history.

We hope you love your bag and take it with you as you carve out your place.

Love and Best Wishes on your journey,

Dave and Topher.

Industry Page

F* the facade.**

We've been in the business for over 15 years and with our background in manufacturing and product development... we can tell when someone is cutting corners..

The industry secrets are honestly not so secret anymore.

Ditching quality for lowers costs and maximum profit.

To all of that.. We say **F*** the facade**. No corner cutting. No fake stuff. 100% real. For the real. Our methods are the reason our bags are made to last.

Because of our methods, we promise a lifetime guarantee.. Our bags are for forever. We promise to make it right, if not.

We aren't going to relish on other companies and what they do or dont do, but this is the bottom line...

Other brands:

- Use plastic fillers, liners, and coatings to cover up poor workmanship
- Use plated hardware to cut costs
- Use imitation leather in hard to see spots to cut costs which makes the bag break down much faster.

Our Brand:

- Never use plastic fillers. We have researched the proper methods to make sure our bags hold shape without any fillers. This is truly what makes our bags one of kind.
- Only use solid brass hardware that shines bright now AND later
- Never use imitation leather. 100% full grain, chrome- free tanned leather **all the time**

Here at Minor History we want to create bags that last forever. Your new bag will become your go to handbag. With quality that lasts. **No corner cutting. Only the real. For the real. Long lasting bag wear made to be apart of your history.**

The Road to Prom Night: Preparing for the Big Day

The journey to prom night is almost as exciting as the event itself. From choosing the perfect dress to finding the right date to getting ready with friends... its all important and it all matters :)

Choosing the Right Prom Dress

Choosing the right dress can be a daunting task, but it doesn't have to be. After all, start by considering what you feel most beautiful in: colors, shapes, and overall styles. Your prom dress should be a **reflection of who you are**: unique and stunning in your own right! So, start by determining your body type, setting a budget (we don't want to break

the bank but we still want to do it up right), and considering your school's dress code. Try on different dresses and make a day of it. Grab your best girlfriend and an iced coffee and get ready to travel to different boutiques to find the perfect dress. Better yet, save some time by checking out @jovanifashions on IG to find which retailers carry JOVANI because of course you'll want to be wearing the BEST.

Always consider the most recent trends when choosing a prom dress. Jovani Fashion is known for keeping up with the latest styles and incorporating them into their designs. Look for dresses that have features such as off-the-shoulder styles, mermaid silhouettes, high slits, and glitter embellishments. These features are sure to make you stand out and feel like a prom queen (whether you're in the running or not). Speaking of, check out this sub article below highlighting some recent trends!!

4 trends that will knock their socks off for Prom Season 2023

🌸 Floral prints, duh - Floral prints are always in style for spring and summer, and prom season is no definitely no exception! This season, we can expect to see a lot of floral print dresses in pastel shades like pink, lavender, and yellow. Who doesn't love a classic flowy flower child dress that screams bohemian. Add in some beach curls and a natural, glowy beat and it's a look!

😎 Off-the-shoulder vibes - The off-the-shoulder style has been popular for a few seasons now, and it's not going away anytime soon. This style is perfect for prom because it's both elegant and trendy. Never too much or too little. It says "I know I look good.. And what about it?"

👗 Two-piece never hurt anyone - Two-piece prom dresses have been growing in popularity in recent years, and they're still a fab choice for this season. The crop top and skirt combo is a great way to show off a little bit of skin while still looking elegant.

✨ Sparkles and sequins please! - Pairing a sequined detailed dress with a slick up-do and some dangly earrings is a show stopper. Prepare to be in the spotlight both figuratively and literally because those sparkles will look perfect under the lights and so will you :)

☀️ To be or not to be the brightest and boldest- This year, bright and bold colors are all the rage. From electric blue to fuchsia, neon yellow to lime green, there's no shortage of statement-making shades to choose from. Whether you opt for a full-length gown or a shorter cocktail dress, choosing a bright and bold color is sure to turn heads.

👗 Some sheer, my dear? - Sheer fabrics have been a popular trend for a while now, and they're still going strong this prom season. From illusion necklines to sheer panels on the bodice or skirt, these dresses are all about playing peek-a-boo with your skin. Sheer fabrics can add a touch of sexiness and sophistication to any prom look.

🤔 It's all in the details, lace details that is- Lace is a timeless trend that's always in style, and this year it's all about intricate lace details. From delicate floral patterns to bold, geometric designs, lace can add texture and depth to any prom dress.

Jovani Fashion offers a wide range of styles, so it's important to choose a dress that reflects your unique taste. For example, if you prefer a more classic look, you might want to opt for a long A-line dress with simple details. If you're more daring, choosing a more bold print or bright color might be the move. Just go with what makes you feel beautiful. Period! Speaking of beautiful, below we highlighted some of the best dress looks of celebs everrrr !

A message from Erica :)

Hi girlyies, I appreciate your support so much. With the year coming to a close, I wanted to share a little bit of myself with you.

As a Cleveland native.. as many of you are :), you know that support and positivity growing up can be hard to find. Many of us are told we may not amount to more than our circumstances. However, I took that on as a challenge because I truly believe **with hard work and dedication, anything you set your mind to is possible.**

I started working for big name retail companies at 17 years old. I learned a ton and took that experience with me as built my own brand. I started with kids clothing & accessories sold right out of my car trunk.

Years later, I pivoted to women's clothing and that is where 'XXIV.7 Apparel' was born.

My brand is designed to highlight a woman's beauty, in and out. The type of clothing that makes her feel beautiful, sexy, dreamy and everything in between 24 hours a day... 7 days a week.

So I hope you all wear my clothes with joy and confidence. Let your individuality shine through your personal style and WORK IT HONEY!

Rooting for you,
Erica - Founder of XXIV.7 Apparel
